

# VEYRON MARKETING CO & JOY PRODUCTION.

JAN 2024

## Company Profile

# Who we are

VEYRON is a hub for various marketing & communication disciplines, offering services such as marketing planning, communication strategies, creative production, digital & offline media management, mobile marketing, geo-marketing, branding, and films' production, through a network of highly experienced professionals.

We work with some *of the most diverse & ambitious brands*

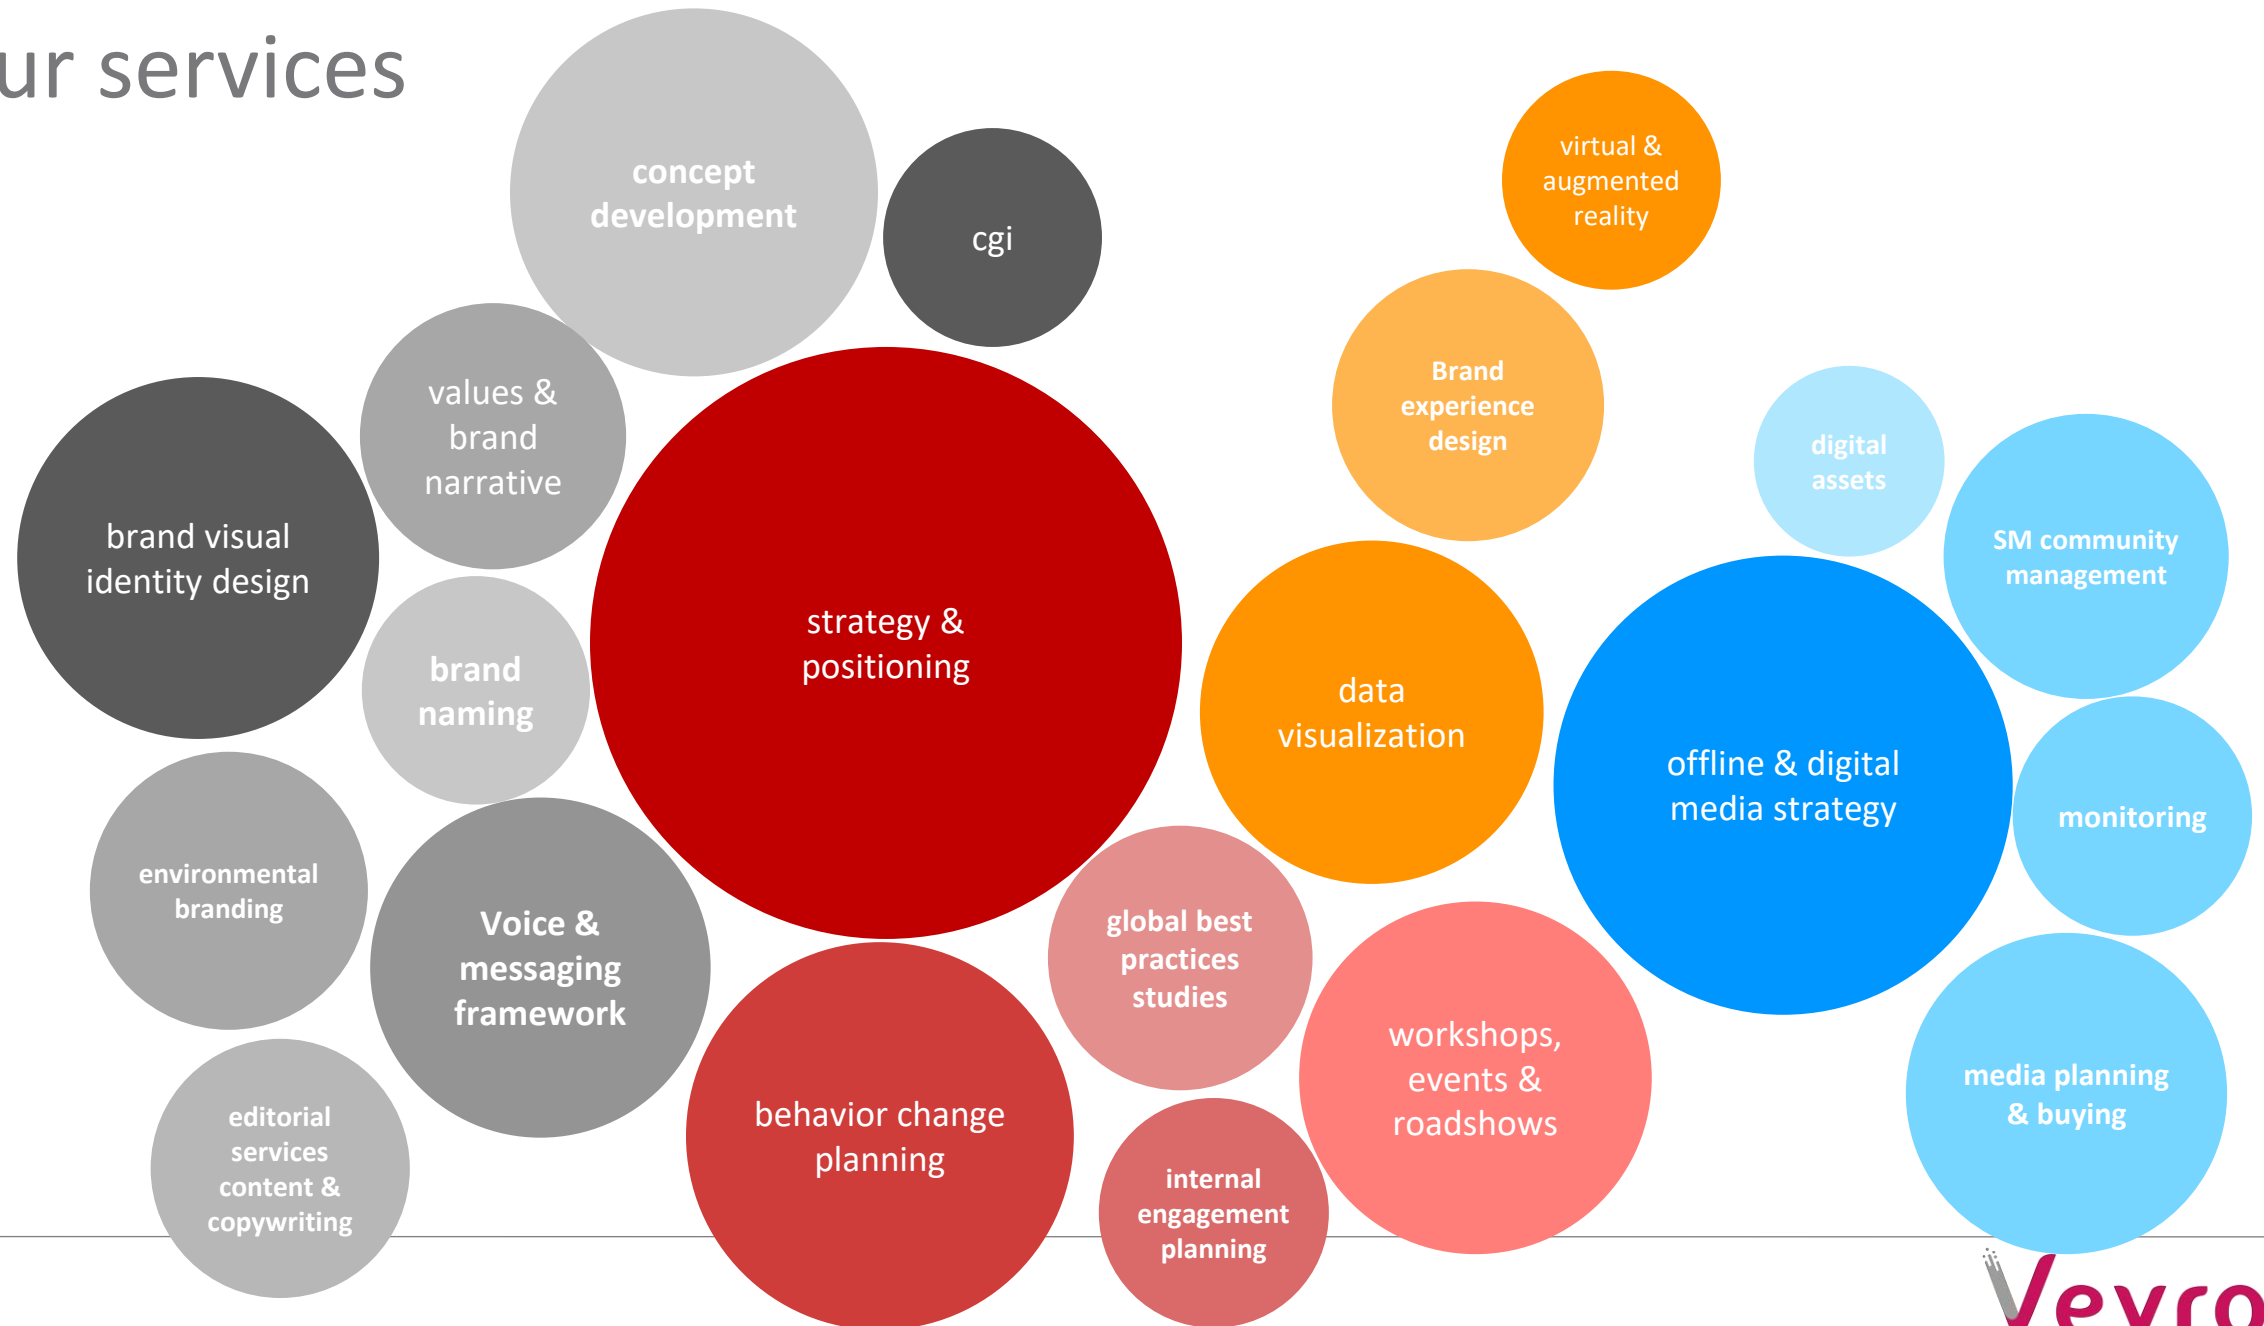

A nighttime photograph of a city skyline. On the left, a tall building with a curved facade is illuminated with blue and purple lights. A sign on this building reads 'مصرف الانماء' and 'alinma bank'. In the center, a wide highway is filled with cars, their lights creating long, colorful streaks of red and white. On the right, a very tall, slender skyscraper with a distinctive golden archway at the top stands out against the dark sky. The city lights and traffic create a vibrant, dynamic scene.

# Our services

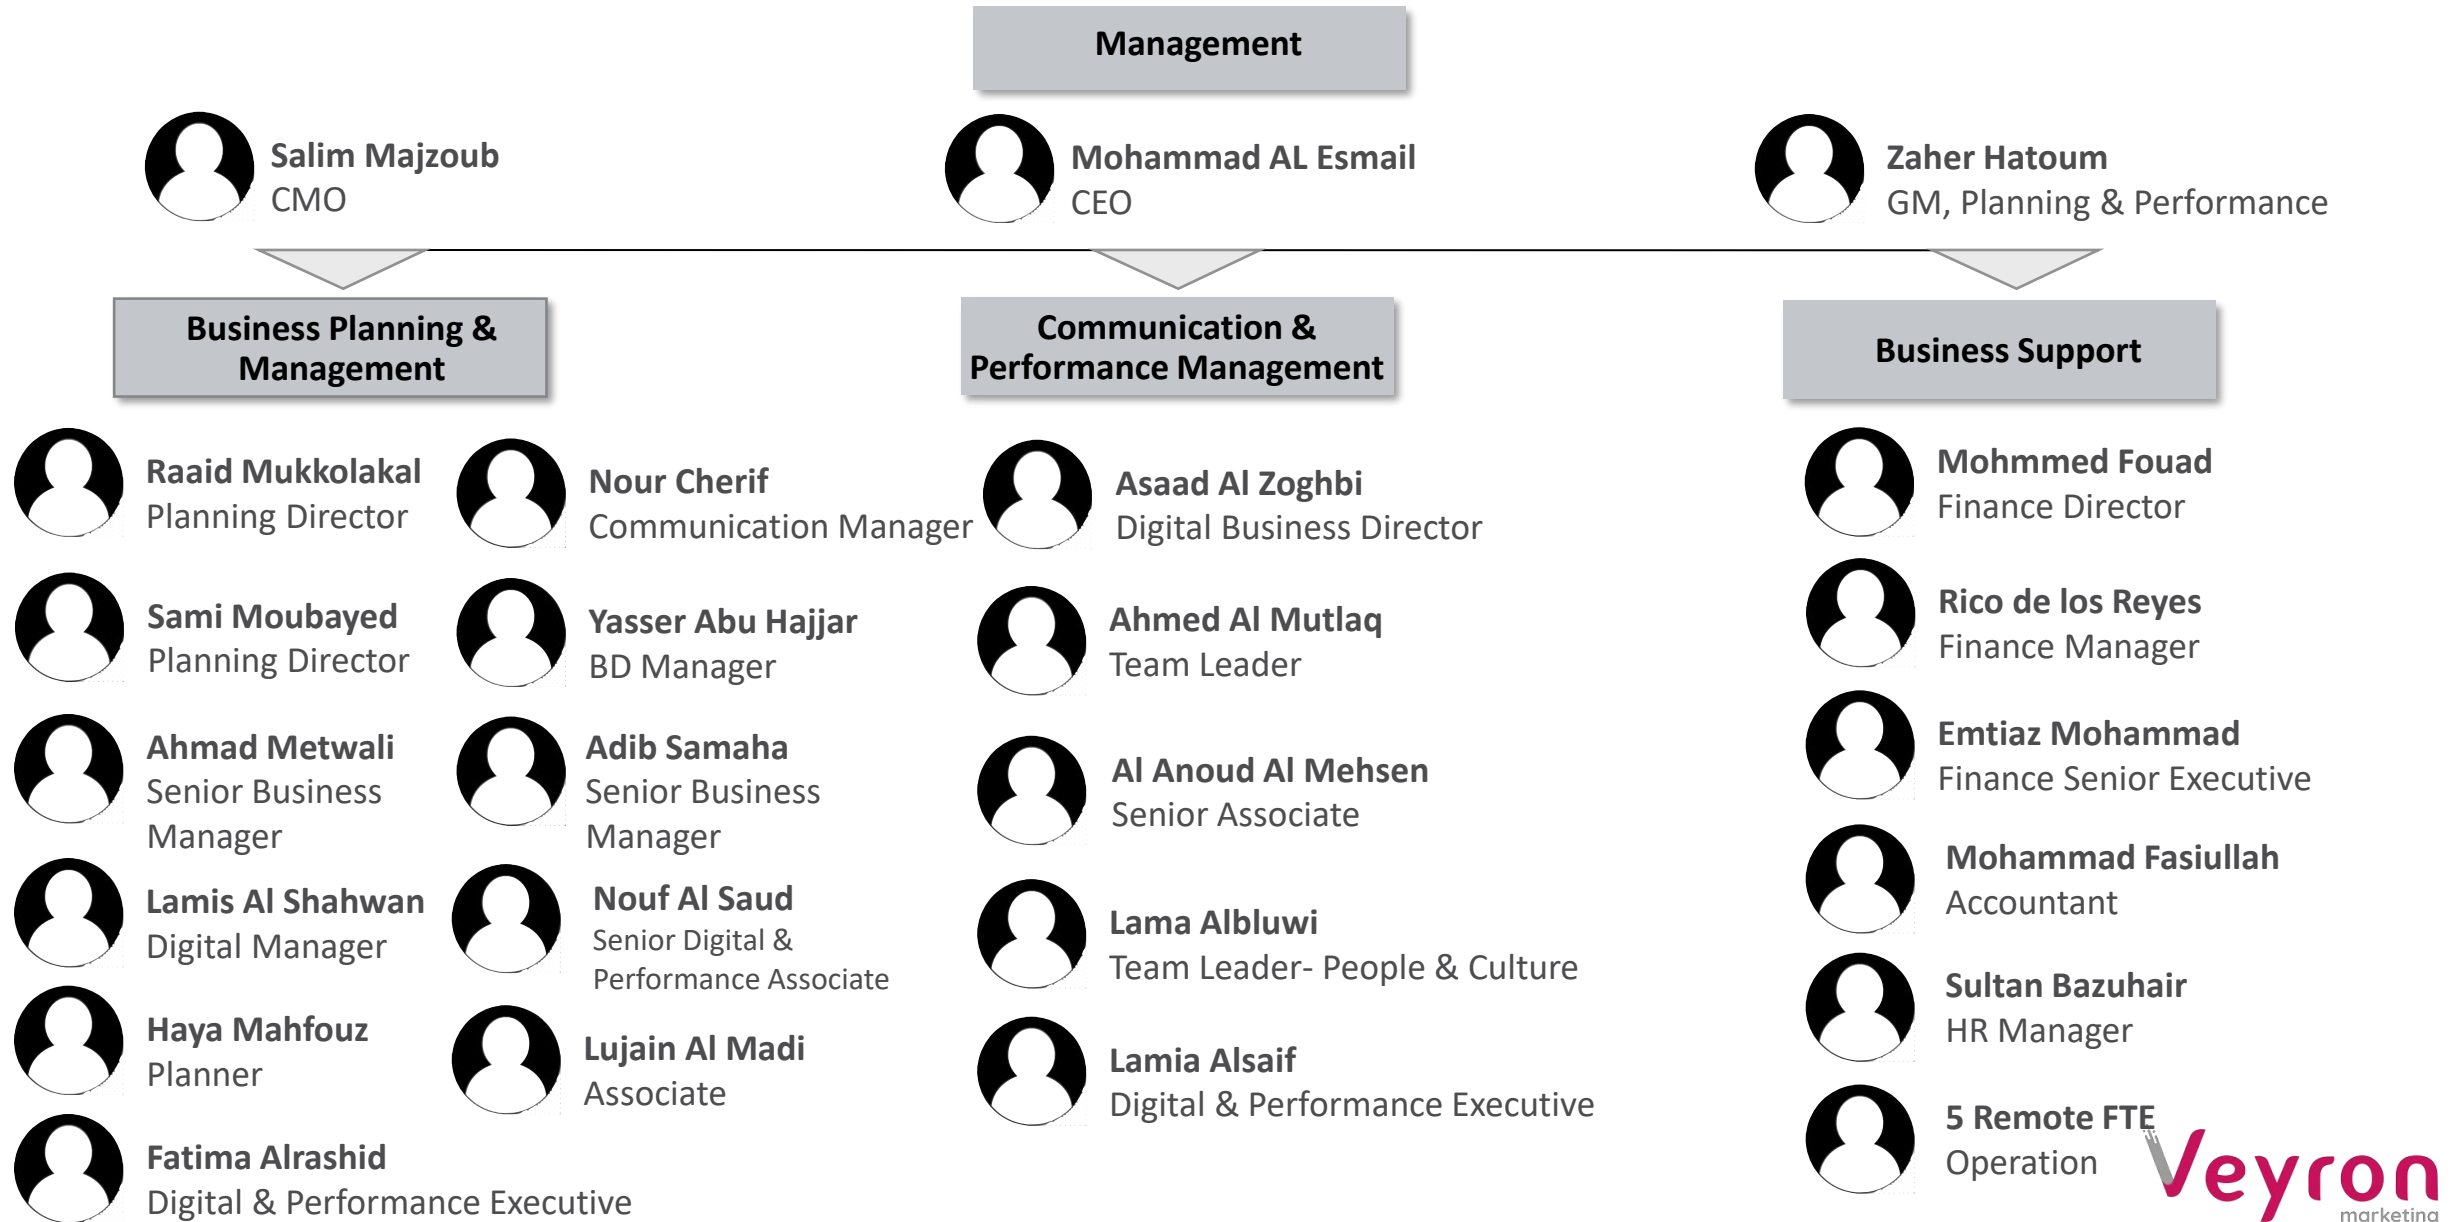

# Our services

# 26 FTE In total, our team has 125+ years of experience

A top-down view of a wooden desk. In the center is a large, unfolded map with various colored lines and text. To the left of the map is a silver laptop with a black keyboard; its screen displays a grid of small images. Above the map, a person's hands are visible, holding a small white cup. To the right of the map, a black camera with a lens is lying on the surface. Below the map, another person's hands are visible, holding a black pen and writing in a small notebook. The desk is also decorated with a small potted plant on the left, a glass of water on the right, and some papers and a pen at the top right.

## OVERVIEW

Employing a strategic OOH Media Campaign, we targeted Riyadh by using 16 large digital billboards. Our goal was to maximize exposure and effectively promote the "Meet the Craftmen" لقاء الحرفيين event that took place in June 2023.

# Hadaf New Identity Launch Campaign 2023

Hadaf launched its new logo and an integrated set of developed services. Veyron has been tasked with the campaign to create awareness and increase the reach to the target audience.

We planned to launch the outdoor campaign in the three major cities using a clever combination of smart high-frequency formats and large billboards. The campaign has gone viral despite the extreme advertising chaos of Ramadan.

## Achievements:

➤ Providing free advertising space to boost campaign momentum and increase exposure in target cities

# KFMB Brand Launch Campaign 2023

Kuwait Flour Mills and Bakeries Company has been operating in Saudi Arabia for more than 40 years. They launched their first overseas campaign in Saudi Arabia during the month of Ramadan in 2023.

Veyron was assigned to lead this campaign, which targets the major cities. We formulated the outdoor advertising plan and linked it to a targeted digital campaign using social media and influencers.

## Achievements:

➤ Providing free advertising space to boost campaign momentum and increase exposure in target cities

170 Faces

2 cities

# Go Telecom New Identity Campaign 2023

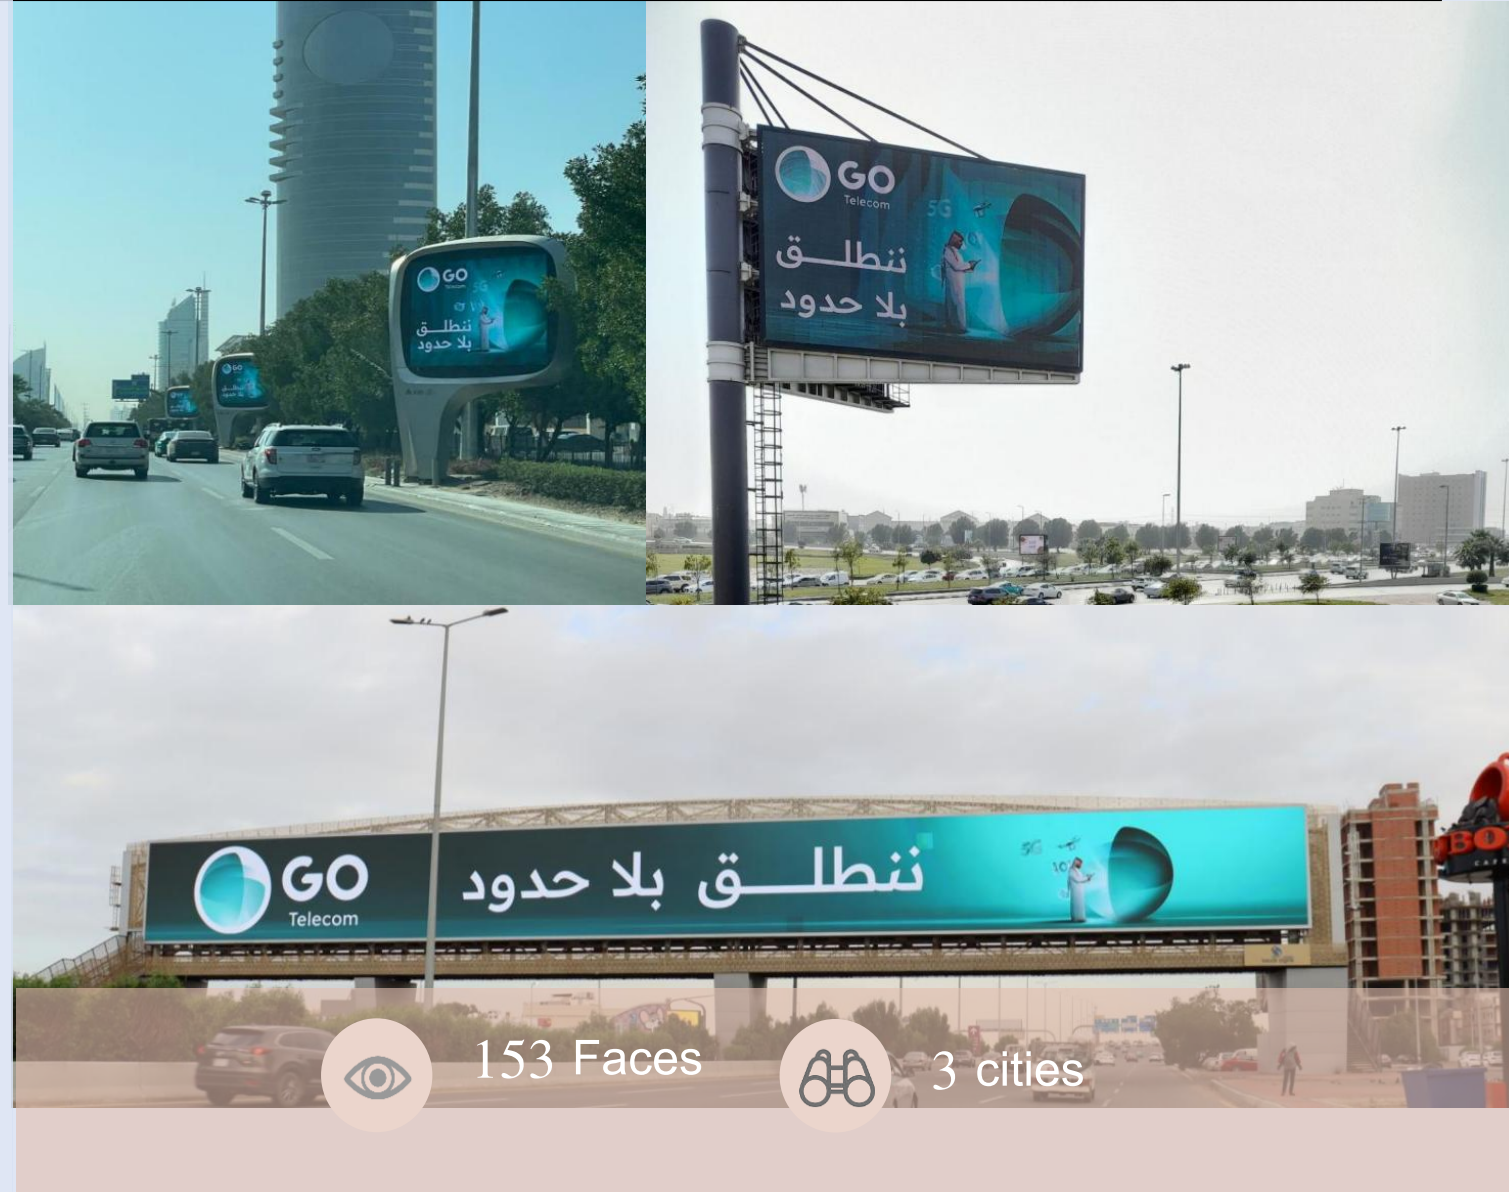

With the fierce competition in the telecommunications sector, Go Telecom is heading to compete strongly by offering competitive offers in addition to launching a new identity.

Go Telecom launched its new logo in January 2023 and requested Veyron to plan and optimize the advertising campaign to reach its current and former customers.

The campaign was launched in high frequency formats in Riyadh, Jeddah and Dammam and achieved high reach at a low cost.

## Achievements:

➤ Providing free advertising space to boost campaign momentum and increase exposure in target cities

# NTP Awareness Campaign About Progress 2023

The National Transformation Program launched a campaign highlighting the successful progress the program has been doing as part of the Vision 2030. Veyron has been tasked with the campaign to create awareness and increase the reach.

We planned to launch the outdoor campaign in the three major cities using a clever combination of different formats and airport activations.

## Achievements:

➤ Raised awareness levels and increased brand awareness for NTP across the markets

For the second time around Monsha'at hosted the biggest Global Business Development Event in KSA requiring Veyron's expertise to plan and launch their campaign targeting both Local & International audience with the intention of increasing global awareness and generating event registrations.

After two months of launching a full funnel campaign, we've successfully generated a total of 145,000 registrations. Also, we managed to create local and global awareness through activations offline and online (TV, Radio, Cinema, Outdoors, Influencers & Press Releases).

## What did they say

The Saudi Data and Artificial Intelligence Authority launched a campaign to announce the Global Summit on Artificial Intelligence with the aim of increasing International and Local awareness about the summit and increasing the number of registrations

## How did we achieve this?

- CYNMAAR – Artificial Intelligence Programmatic Desk
- Advanced Reach & Frequency Optimizer
- Integrate targeting between platforms
- Possibility to target more specific targets
- Daily monitoring and optimization

## The results

This campaign was exceptionally successful. The agency has seen a massive increase in traffic using Cynmaar, specific keywords and interests. We were able to achieve a 47% increase in View-through rate, with a significant 127% increase in engagement rate.

# Monshaat GEC Campaign

**34%**  
increase in awareness

**85%**  
Target accuracy

**48%**  
increase in CTR

# Monsha'at – GEC Campaign

## Results:

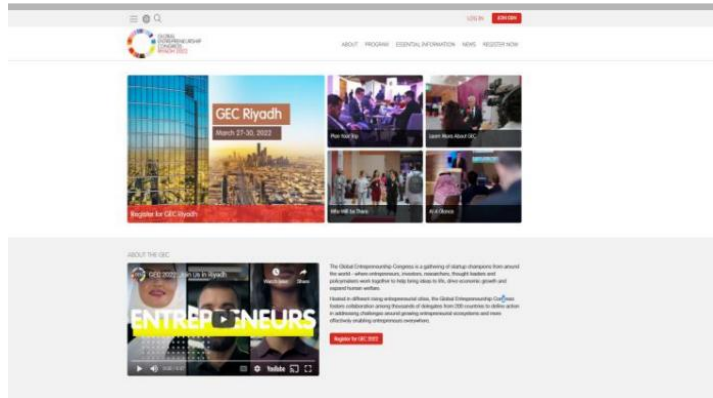

We increased the awareness by an impressive 34 , achieved target accuracy at an outstanding 85 , and, lastly, increased the CTR by 48

## What they had to say:

Monsha'at, a Small & Medium Enterprises General Authority in Saudi Arabia, holds an annual congress called the Global Entrepreneurial Congress, also known as GEC. Different investors, researchers, entrepreneurs from all around the world gather in order to generate progress regarding the challenges being faced in the entrepreneurial field. Monsha'at strived to attain increased awareness regarding GEC, and to push towards generating registrations.

## How we did it:

- Heavy research efforts based on the inventories of the different countries addressed
- Research based on the best performing platforms of the different countries addressed
- Campaign tracking through CYMAAR, which grants us the advantage of conjoining our efforts with accurate Artificial Intelligence monitored data
- Using relative keywords to attain and target high quality leads

# Tawuniya Major SME relaunch campaign

**2.7%**

Conversion rate (*double the benchmark*)

**10k**

Generated leads

**58%**

Decreased cost per  
conversion

# SMEs' Registration in Tawuniya's Health Insurance

## Results

We successfully achieved a total amount of 9,019 brand new lead registrations with an outstanding conversion rate of 2.77% while we, simultaneously, decreased the cost per conversion by 58%. Moreover, we overperformed by attaining a CTR of 15.85% relative to the CTR benchmark which is at 1.00%. Lastly, we decreased the CPC by 122%.

## What they had to say:

Tawuniya's launching a campaign that highlights the accessibility and benefits of their health insurance services targeted towards SMEs, also known as Small to Medium Enterprises. Tawuniya's well pleased by the number of Leads generated through the SMEs Major Relaunch Campaign.

## How we did it:

- Daily supervision of the campaign through Cymaar
- Tracking the progress made day-by-day, and adding adjustments or advancements on the go
- Targeting efforts tailored according to the objectives of the campaign
- Retargeting any prospective lead that expresses interest electronically

# CITC Manassa Tech Campaign

**137.5%**  
increase in registrations

**28.57%**  
increase in conversion rate

**18.40%**  
increase in CTR

# Registering in CITC's Manassa Tech

## Results:

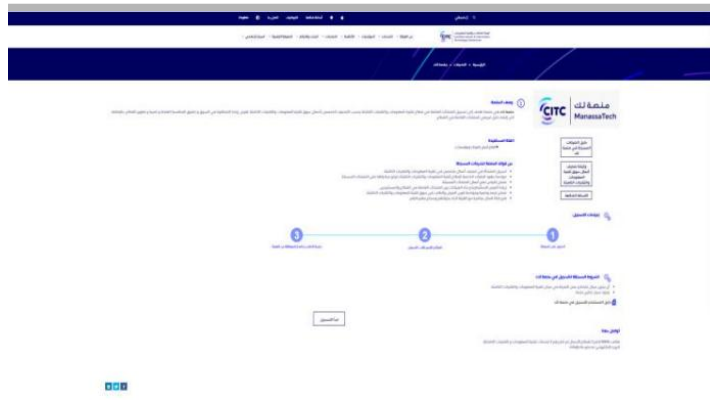

We increased the number of registrations by an impressive 137.5%, increased the conversion rate by 28.57%, and, lastly, increased the CTR by 18.40%.

## What they had to say:

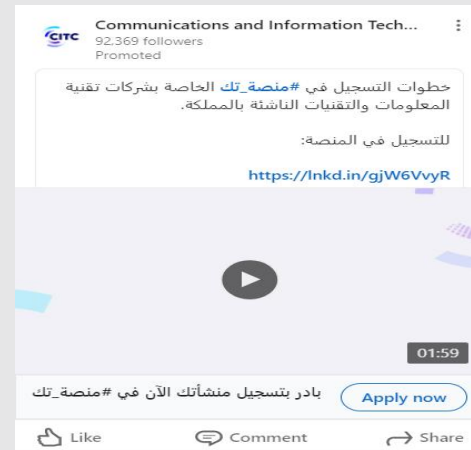

The Communications and Information Technologies Commission Company, (CITC), established a new platform constructed specifically to converge all IT/New Technology-revolved enterprises around the kingdom to act as a source of reference, to further KSA's market transparency, and to sustain a just competition among its various enterprises.

## How we did it:

- Particular targeting efforts intended towards IT enterprises all around KSA
- Presenting consistent and up-to-the-minute solutions/suggestions to advance the number of registrations
- Campaign tracking through CYMAAR, which grants us the advantage of conjoining our efforts with accurate Artificial Intelligence monitored data
- Using relative keywords to attain and target high quality leads

# Manassa Tech registration Campaign

# CITC NTN Campaign

1,210 increase in  
registrations

22.86 increase in  
Conversion Rate

90 increase in CTR

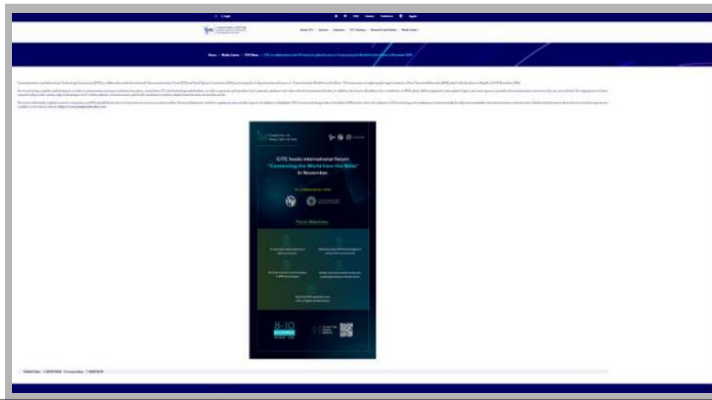

Veyron  
marketing

# Registering in CITC's NTN Forum

## Results:

We increased the number of registrations by an impressive 1,210 , increased the conversion rate by 22.86 , and, lastly, increased the CTR by 90

## What they had to say:

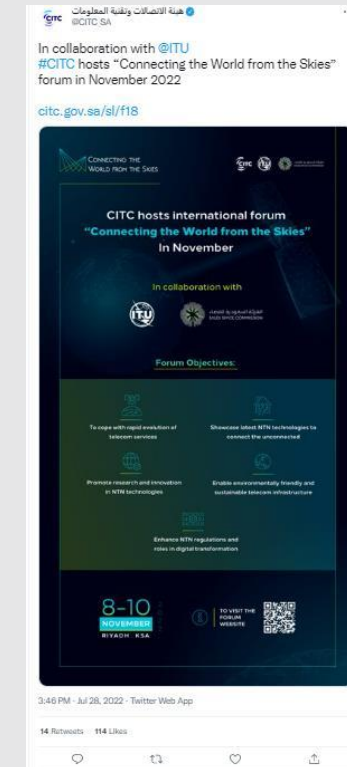

The Communications and Information Technologies Commission Company, (CITC), are collaborating with International Telecommunication Union (ITU) and Saudi Space Commission (SSC) to host an international forum. They're inviting registerers to join the forum since it aims at exploring ways of coping with the rapid evolution of Non-Terrestrial Networks, at showcasing and enhancing the latest NTN technologies, and so forth.

## How we did it:

- Targeting 9 different countries around the world by launching 9 different campaigns tailored according to each of the countries' affiliations
- Using relative keywords to reach the maximum number of relevant registerers
- Presenting immediate solutions/suggestions to advance the number of registrations at the lowest cost possible
- Campaign tracking through CYNMAAR, which grants us the advantage of conjoining our efforts with accurate Artificial Intelligence monitored data

# Tourism Development Fund

## ANB Program Launch Campaign

76 decrease in cost per  
impression

55 increase in click  
through rate

88 increase in registrations rate

# ANB Program Campaign

## What did they say

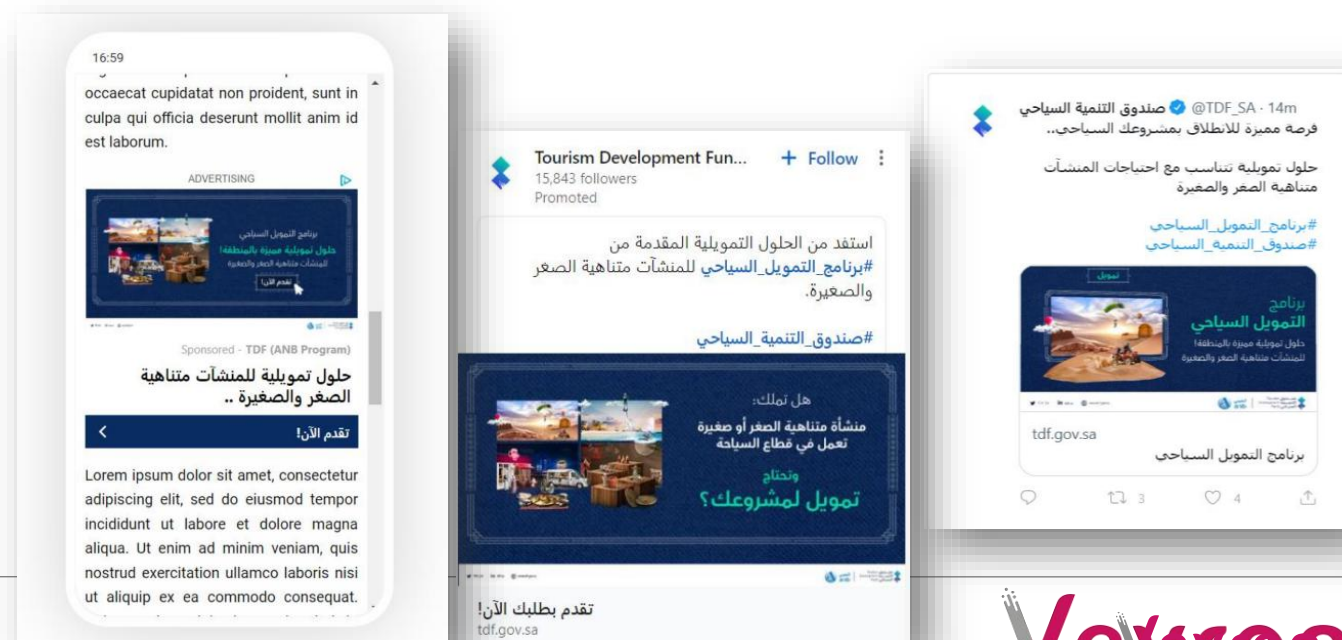

The Tourism Development Fund launched a campaign to advertise the financing program in cooperation with the Arab National Bank with the aim of increasing awareness about the program, highlighting the services provided through it and increasing the number of registrations

## How did we achieve this?

- CYNMAAR – Artificial Intelligence Programmatic Desk
- Advanced Reach & Frequency Optimizer
- Integrate targeting between platforms
- Possibility to target more specific targets
- Daily monitoring and optimization

## The results

This campaign was exceptionally successful The fund saw a massive over-traffic using Cynmaar, specific keywords and interests We were able to achieve a planned KPI of 76 decrease in cost per impression, a 55 increase in click-through rate, and a significant 88 increase in program registrations

# Streamlining The Future of Tenders & Competitions

## Thiqah, Etimad Campaign

إطلاق منصة اعتماد

إطلاق منصة اعتماد

**174%** Increase in Click  
Through Rate

**259%** Increase in  
Conversions

**20%** Increase in Paid  
Acquisition Leads

# Launching Etimad Platform, *to facilitate all governmental procurement in KSA*

## Whom we worked with:

Thiqah developed a Tier 1 platform that facilitates the tenders and competitions procedures in KSA; however, this needed a solid media strategy to make it viral, highlights its benefits and service, and most importantly, to increase registrations and engagement with the platforms

## What they had to say:

We have overachieved the Sessions Capacity of the platform in the first couple of weeks, a result of a *20% increase in Paid Acquisition Leads*. Reaching the right audience was *a targeting masterpiece!* With Veyron's Planning at optimization, we witnessed *a 174% increase in CTR and a 259% increase in conversions*.

## How we did it:

- A dual approach of Mass Targeting and Direct Response
- Social Content optimization
- Retargeting Methods
- Programmatic Advertising
- Clicks & Conversion based final approach
- Micro-Conversion Tracking

# How Digital Marketing Drove 96% Boost in Registrations for Monshaa't Biban Event?

**82%** *Decrease* in Cost per Conversion

**163%** *Increase* in Conversion Rate

**96%** *Increase* in Registrations

# How Monshaa't Increased the Registrations by 96%

## Whom we worked with:

Being a governmental entity and hosting the most important Business Development event in KSA, Monshaa't enquired the help of **Veyron** to improve their performance and acquire more registrations.

## What they had to say:

After two month of work, we were able to surpass our main KPI (30K Registrations) a day prior the event start, reaching 38K - and that was just the beginning. By the end of the campaign we *reduced the cost per lead by 82% while increasing conversions rate by 163% - The total number of registrations reached the 59K*

## How we did it:

- Blanket Awareness at a Sequential Frequency
- Data Layer Targeting
- High Tempo Landing Page Optimization
- Positive & Negative Remarketing

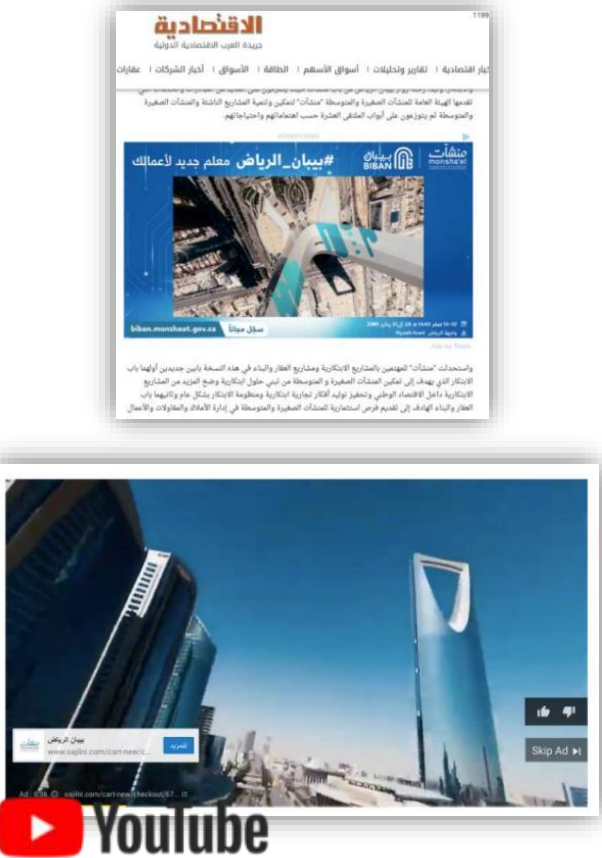

# How Monshaa't Increased the Registrations by 96%

## Social

# MOH, Digital Doctors' Visits Are Just a Click Away.

**499%** *Increase in Search  
Queries*

**340%** *Increase in Click  
Through Rate*

**88%** *Increase in  
Installation*

# How MOH Increased the Digital Doctors' Visits

## Whom we worked with:

MOH tried for years to facilitate the patients' life and their health care journey.

The Seha App was launched to take answer patient's queries without any physical visit at a faster response rate.

They challenge was to deliver the message and secure high engagement within the app services.

## What they had to say:

Brilliant results were achieved! The engagement of the audience was heavy with more than **112% increase on the in-app engagement** of the already registered users.

We scored a **499% increase on the Search queries**, while achieving **an exceptional high CTR of more than 13% and a 88% leverage in installations**

## How we did it:

- A dual approach of Mass Targeting and Direct Response
- Social Content optimization
- Retargeting Methods
- Programmatic Advertising
- Clicks & Conversion based final approach
- Micro-Conversion Tracking

# Ministry Of Sports E-Gym Campaign

## Streaming Energy To People's Houses During The Lockdown

**92%** *Increase* in Online Attendance

**96%** VTR on Social Platforms

**122%** *Increase* in Session Timing

# It Wasn't only About the Results.. It Was About Speed

## Whom we worked with:

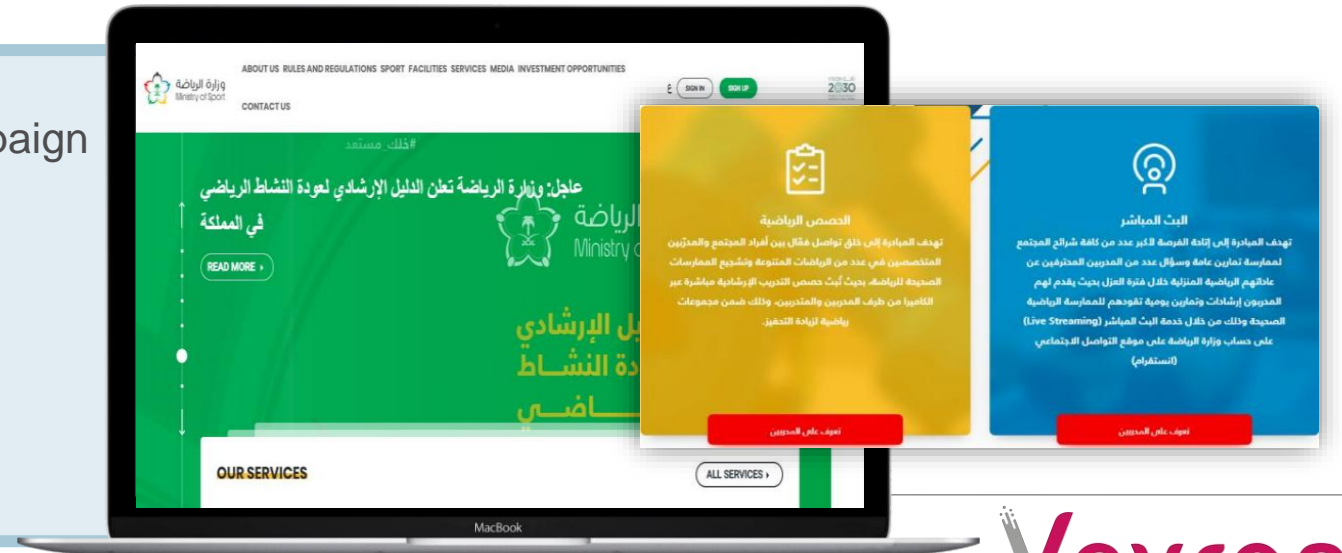

MOS (Ministry of Sports) launched a online platform to keep people in KSA active at home. MOS put together multiple live workouts sessions with different coaches. The KPI was to achieve a huge number of 100K registrations and more than 500K attendees; however, the main challenge was time. We had to reach our KPI in a 5 days period.

## What they had to say:

We have overachieved the number of required attendees **92% in just 2 days time!** Reaching the right audience was **a mechanical masterpiece!** With Veyron's Planning at optimization, we witnessed **an exceptional 96% VTR on social platforms with a 122% increase in sessions timing.**

## How we did it:

- Special targeting variables were used in this campaign
- Customized audiences, targeting people who are followers of the MOS accounts
- Lookalike audiences in order to expand our niche reach.
- Targeting users who engaged with similar sports accounts, backed up with interest and keywords targeting.

# It Wasn't only About the Results.. It Was About Speed

## Twitter

## Instagram

# وزارة الصحة

## Ministry of Health

**60%** *Decrease in CPI*

**150%** *Increase in number of Installs*

**85%** *Increased number of Self Assessment Survey*

# MOH Mawid App Covid-19 Self-Assessment

## Whom we worked with:

MOH launched an online *Covid-19 Self-Assessment* Survey that gathers information about suspected cases, provides safety procedures and receive advice from experts.

The challenge was to raise awareness about *Covid-19 Self-Assessment Survey* and secure high number of completed Surveys.

## What they had to say:

Successfully overachieved the target number of surveys by **85%**

By using a dual approach of Mass Targeting as a first phase and followed with a Niche Targeting of specific regions. With our daily monitoring and optimization we managed to highlight and tackle the niche regions/cities to fill the survey using retargeting method.

***More than 600K PCR test was conducted since the start date.***

## How we did it:

- A dual approach of Mass Targeting and Niche targeting to specific regions in Saudi Arabia.
- Daily optimization
- Retargeting Methods
- Delivering leads with the lowest cost.

# MOH Mawid App Corona Test Campaign

## Social

## Display

# Cyber Security   Drones Global Competition Campaign

Proving The Power Of Targeted  
Media. 146% More Conversions &  
100% Quality Leads

**44%** *Decrease* in Cost per  
Conversion

**97%** Target Accuracy

**24%** *Increase* in  
Submissions

# The SAFCSP Sufficiently & Successfully Overachieved it's KPIs

## Whom we worked with:

Within **73 different countries**, the SAFCSP had to reach **Drones Technicians** who only work in **Startup Drones Companies** – Get them upload a video of their work and participate in the Drones Competition in KSA

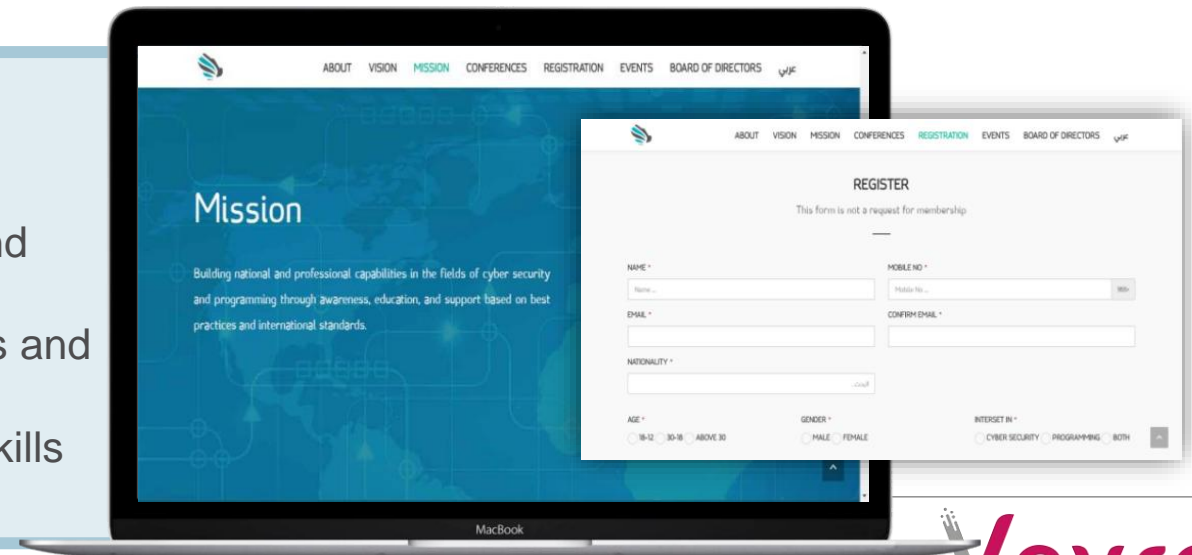

## What they had to say:

In only half of the campaign flight duration, we had 62 valid submissions on board (overachieved the KPI of 50) and this is where the Submissions close with *less than 60% of the budget spent.*

*We were able to decrease the cost per conversion by 44% and surpassed the submission by 24%*

## How we did it:

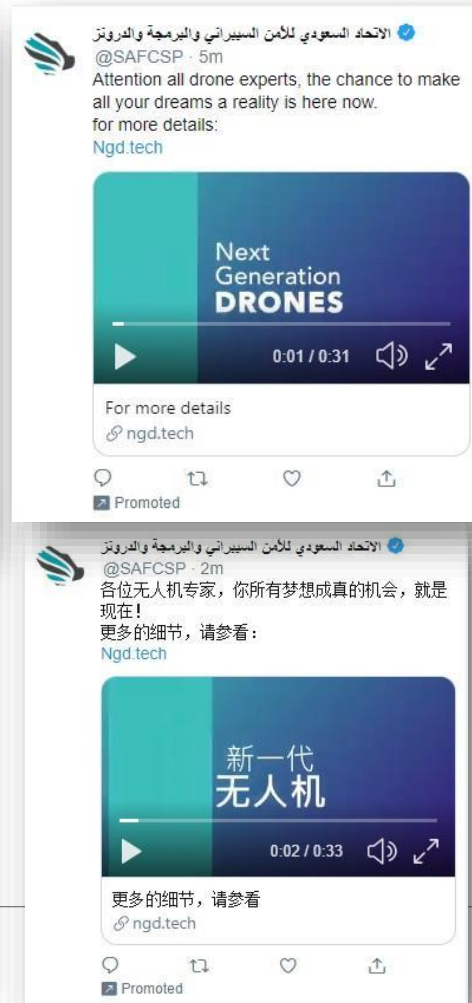

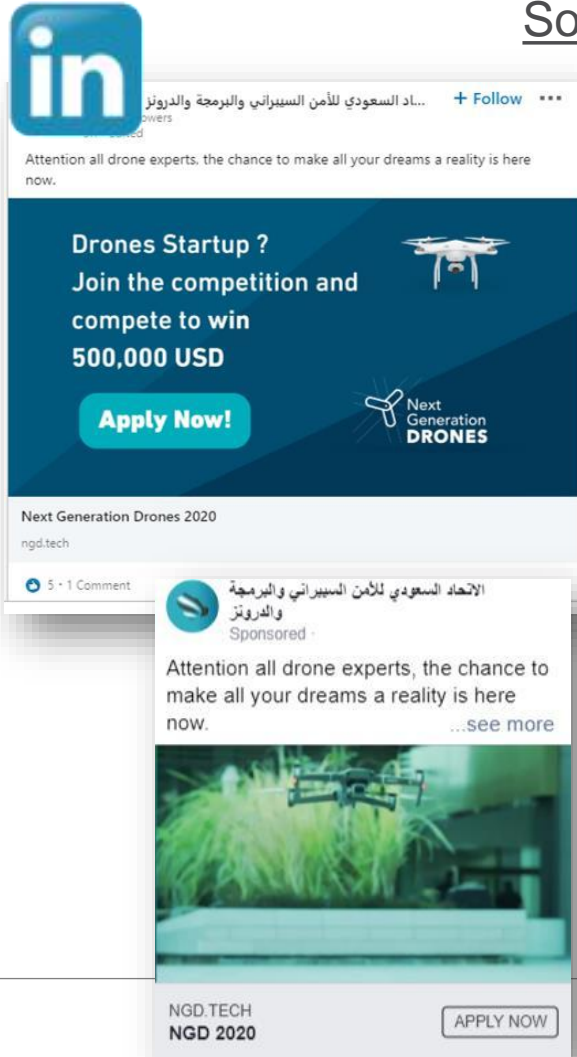

- A research of the 73 countries and their digital penetration.
- Narrowed down the target audience by interest and behavior
- Uploaded a custom audience with phone numbers and emails, then used a look alike method
- Targeting by Startup Names then by employees skills through LinkedIn

# Tracking users across different conversion process

# Visual Content. Visual Ads content that we are using for the campaigns

The image displays eight visual ads for Zowee Fiber, arranged in a 3x3 grid. The bottom-right cell is empty. A large blue bracket on the right side of the grid points to a central icon of a television with a red play button, labeled "Visual Ads".

The ads are as follows:

- Top Row:**
  - Ad 1: A person sitting on a chair with a large red "24" graphic. Text: "الإنترنت عندك خلال 24 ساعة".
  - Ad 2: A group of people sitting on a couch. Text: "ال Ping رهيب".
  - Ad 3: A woman speaking. Text: "Skip Ad".
- Middle Row:**
  - Ad 4: A house at night with a red "24" graphic. Text: "الإنترنت لأمحدود وبسرعات عالية وثابتة".
  - Ad 5: A man sitting on a couch with a red "24" graphic. Text: "الإنترنت لأمحدود".
  - Ad 6: A man sitting at a desk. Text: "Skip Ad".
- Bottom Row:**
  - Ad 7: A person sitting on a chair. Text: "Skip Ad".
  - Ad 8: A woman wearing glasses. Text: "Skip Ad".

## *MOH Awareness Campaign*

A nighttime photograph of a city skyline. On the left, a curved building with a grid of lights and a glowing circular logo is visible. In the center, a wide highway with multiple lanes shows long-exposure light trails from cars. On the right, a tall, slender skyscraper with a large, illuminated, inverted U-shaped opening at the top stands out against the dark sky. The city lights and a cloudy night sky complete the background.
